Dear Noel,

I have chosen for Phil the present hall grandfather clock + for John the present du Cange grandfather clock (there is a third, the largest, still waiting in the dining room). I have chosen Phil to give 'Free Mason' dining service for John & Mason guys (they seemed to want something representing the Stanton decor). I took also 4 pictures, framed oils, on the corridor walls, & I am afraid the picture situation is rather grim (with or without the four selected!).

I went through the dining but I da left me (the 2 chamberlain Worcester tea services) & found there was a 3rd very pretty tea service mixed up with the two. I put this in a different place w/out it will catch your eye. In the corner cabinet with my two tea-services are bits of two others which are, so to speak, in the kitty, except for the complicating fact that essential parts

of them have been carefully put into
my china cabinet in the lounge!! I have
tried to restore them to completion, but there
is still one of the tea pots in my cabinets.
So please fish there in for anything, that is
part of an outside set.

Kelen is coming down on Saturday.
I think she will agree with me we shall take
key little ourselves in the furniture line, so
if Glyn wants anything, or any newly weds,
let us know what you & Mary might like
in addition to your actual selections under
her will.

Yours,
John,
