Dear Noel,

I think John had better have the oak glass-fronted corner cupboard in the hall near the lounge door. I've written to Mr Hallmark. If it is too late to make the change, I'll sell him clock for him & send him this cupboard (unless you or Mary particularly want it!).

You see what Phil says about the photos & pictures.

I hope you will have
a look thru, & the
material & will

give me your advice
I know the problem
is really rather
painful. What about

Offering, all these
type script women &
things to Percy Edgar?

We could say we
thought she would like
him to dispose of
them, WIPB or not;
as he thought fit

Yours
